## WHAT IS CLAIMED IS:

- 1. A scoop for use on non-horizontal work surfaces, which comprises:
  - (a.) a first base panel and a second base panel, each of said first and second base panels having a front, a back and two sides, said first base panel and said second base panel being connected to one another along a side of each to establish a seam wherein a first angle measured perpendicular to said seam and formed by said first and second panels, is about 120 degrees to about 170 degrees;
  - (b.) a first wall panel and a second wall panel, said first wall panel being connected to said first base panel on a side opposite said seam and at a second angle of about 120 degrees to about 170 degrees, said second wall panel being connected to said second base panel on a side opposite said seam and at a third angle of about 120 degrees to about 170 degrees; and
  - (c.) a back panel, said back panel being connected to the backs of said first and second base panels.
- 2. The scoop of claim 1 wherein said first base panel and said second base panel are rectangular with lengths that are greater than their widths, said lengths running along said seam.

- 3. The scoop of claim 1 wherein said scoop further includes:
  - (d.) a handle located on at least one of said back panel, said first wall panel and said second wall panel.
- 4. The scoop of claim 1 wherein said first angle is between about 150 degrees and 170 degrees.
- 5. The scoop of claim 1 wherein said second angle and said third angle are each about 120 degrees to about 150 degrees.
- 6. The scoop of claim 1 wherein said first angle is about 150 degrees and 170 degrees and said second angle and said third angle are each about 120 degrees to about 150 degrees.
- 7. The scoop of claim 6 wherein said first angle is about 150 degrees and 170 degrees and said second angle and said third angle are each about 120 degrees to about 150 degrees.
- 8. The scoop of claim 3 wherein said handle is located on said back panel.
- 9. The scoop of claim 3 wherein said handle is located on at least one of said first wall panel and said second wall panel.

10

15

- 10. The scoop of claim 1 wherein said first base panel, said second base panel, said first wall panel and said second wall panel are all formed from a single integrated piece.
- 11. The scoop of claim 1 wherein said scoop is a metal scoop.
- 12. The scoop of claim 1 wherein said scoop is a plastic scoop.

10

15

- 13. The scoop of claim 1 wherein said first wall panel and said second wall panel are each connected to said back panel
- 14. The scoop of claim 1 wherein said first base panel, said second base panel, said first wall panel, said second wall panel and said back are made of a single piece of material.
- 15. The scoop of claim 14 wherein said single piece of material is a metal material.
- 16. The scoop of claim 14 wherein said single piece of material is a plastic material.

- 17. The scoop of claim 3 wherein said handle is located on an outside surface of said back panel.
- 18. The scoop of claim 15 wherein said scoop includes a handle that is located on an outside surface of said back panel.
- 19. The scoop of claim 16 wherein said scoop includes a handle that is located on an outside surface of said back panel.
- 20. The scoop of claim 15 wherein said scoop is made of aluminum.
